This application is objected to because it contains a data file on compact disc, which is not identified in the
paper portion of the specification with a listing of all of the files contained on the disc. When portions of an
application are contained on a compact disc, the paper portion of the specification must identify the
compact disc(s) and list the files including name, file size, and creation date on each of the compact discs
(see 37 CFR 1.52(e)). Applicant(s) are required to amend the specification to identify each disc and the
files contained on the disc including the file name, file size, and file creation date.
